

Dear Neighbours,

27 April 2026

Dear Residents and Stakeholders,

There are no significant changes to programmed activities on site. Key works along visible elevations are:

Week commencing Monday 27th April 2026.

1. Façade installation: South Audley Street, Hill Street and Waverton Street.
2. Concrete and screed pumps are not planned to be located in the Waverton Street next week but may return at a later date (TBC). Acoustic barriers will be placed around the pumps. Noise, dust, and vibration monitors located close to this activity have not recorded any exceedances against WCC approved levels.
3. Works to external terraces (South Audley Street) levels 5, 6 and 7 will continue.
4. Roof cladding works continue.
5. Striking (removal) of the scaffold along the South Audley Street elevation continues.
6. Scaffold erection along elevation 12 (Waverton Street) close to Red Lion Yard in preparation for façade works.

Upcoming works:

1. The trial hole excavation on the South Audley Street elevation has been completed. Further breaking out of concrete/tarmac (percussive) in preparation for public realm works along the South Audley Street elevation are being planned and I will ensure details and timelines are shared with you as soon as they are finalised.

Strict adherence to our Best Practicable Means (BPM) measures will be observed throughout all our works.

Please contact Peter Walsh, on **07767 858638** or email peter.walsh@macegroup.com if you have concerns, comments or complaints at any time during these works.

Many thanks and kind regards,

Peter Walsh
